BT8040 MULTIUSE

WITH USB BLUETOOTH DONGLE

Radical design and superb sound for mobile phones and PC

Small and sleek, Jabra BT8040 Multiuse headset has all the benefits of a small discrete headset (only 10 grams) without sacrificing audio performance. Packed with the latest in audio technology Jabra BT8040 is geared for business and provides crystal-clear sound at both ends of the conversation.

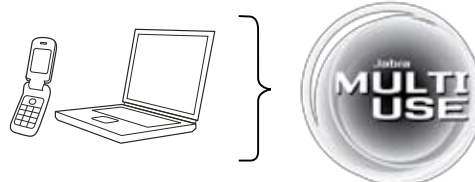

Jabra BT8040 connects wirelessly to your Bluetooth mobile phone and simultaneously to your personal computer via the Jabra A330 Bluetooth dongle. So now you only need one headset for mobile phone calls, PC based telephony, internet radio, music streaming etc.

Developed for the active professional in the office and in the field, the Jabra A330 Bluetooth dongle is very easy to use. It is a true plug-and-play device with no driver requirements.

The Jabra A330 Bluetooth dongle supports Windows 2000/ Windows XP/ Windows Vista and works with leading soft phones such as Skype and Microsoft® Office Communicator 2007.

One headset for all your needs

Jabra

What is Multiuse?	Multiuse is a range of Jabra headsets from GN featuring MultiPoint technology that allows simultaneous connection to several Bluetooth enabled devices
What is Bluetooth wireless technology?	Bluetooth wireless technology is a radio technology developed to deliver short-range wireless mobility. Bluetooth technology eliminates wires between devices, such as mobile phones and headsets, and enables communication between devices that are in close proximity to one another. Bluetooth facilitates fast, secure transmissions of both voice and data. More information is available at www.bluetooth.com or www.bluetooth.org
