- The free GN1200 Smart Cord is not applicable on sales of GN2000 USB and GN2100 USB.

Jabra

JABRA WIRELESS HEADSET SOLUTIONS

The Jabra GN9350 wireless headset provides the ultimate hands-free working solution for both the office worker and contact centre supervisor. With up to 100 metre range, multiple wearing styles and noise cancelling microphone, the GN9350 offers exceptional sound quality and protection. Perfect for those users of both IP Telephony and traditional telephony systems, it provides users with dual connectivity to switch between phone and PC.

The JABRA GN9120 wireless headset range offers complete flexibility for hands-free working. With up to 150 metre range, a choice of microphone types & wearing styles, it is a perfect choice for office and contact centres demanding a more flexible mobile solution.

The Jabra GN1000 remote handset lifter provides ultimate wireless freedom. A device that fits to your telephone handset, the GN1000 enables users to answer and end calls remotely.

JABRA CORDED HEADSET SOLUTIONS

The Jabra GN2100 corded headset range is a high performance contact centre headset with a lightweight design. Delivering the ultimate sound experience it provides flexibility in wearing styles to ensure maximum comfort and protection.

The Jabra GN2000 corded headset range is designed for the most demanding contact centre & office environment. Its larger style ear pads, durable design and exceptional sound quality, provide you with the comfort and protection you require day in day out.

The Jabra GN1200 Smart Cord enables users of Jabra GN2000 & GN2100 headsets to connect to virtually any telephone system with just one cord. A more convenient solution, the GN1200 offers a future proof cord should a phone system be upgraded or if a new site has a different specification of handset.
