

## Twice the clarity. Exceptional wireless range.

The wireless Jabra GN9120 Duo headset sets new standards for professional communication in noisy office environments and contact centres. The new duo version of the award-winning GN9120 Series offers true wireless freedom combined with superior comfort and great sound quality.

- Great listening accuracy with duo speakers
- Noise-cancelling microphone for reduced background noise and crystal-clear calls
- Up to 150 metres of unbeaten wireless freedom
- Up to 12 hours of talk time
- Multi-unit conferencing capability
- Lightweight headband wearing style for all-day comfort

The wireless GN9120 Duo headset is the professional choice for wireless hands-free telephony. Giving you up to 150 metres of range, up to 12 hours talk time plus a host of innovative features, the GN9120 Duo lets you get more done.

Conference calls have become a way of life in today's business world. The GN9120 Duo's multi-unit conferencing capability lets up to four headsets join in on a call. Enjoy fully mobile conference calls without the hassle of crackling speakerphones or meeting room bookings. Adding the GN1000 remote handset lifter with the GN9120 Duo enables you to remotely answer/end calls and with the GN8110 RJ9 adapter you get instant access to PC-based IP telephony.

The GN9120 Duo is reliable and designed for demanding environments. PeakStop™ eliminates excessively loud sounds, and the headset is compatible with virtually any telephone. The GN9120 Duo helps you excel by giving you the freedom to work your way.

# Jabra

Feature	Benefit
Duo speakers	No interference from surrounding noise. Greater listening accuracy.
Noise-cancelling microphone	Excellent noise reduction – great for open, loud office environments.
Range of up to 150 metre	The Jabra GN9120 Series unrivalled range gives you up to 150 metres of mobility away from your base unit.
Up to 12 hours of talk time	With talk time of up to 12 hours, the GN9120 Duo won't let you down during even the longest of days.
Duo headset sold separately	Upgrade with existing GN9120 base.
Conference calling	The multi-unit conferencing feature lets up to four headsets join a call. Now you can hold a fully mobile conference call from virtually anywhere in the office.
Mute function	If you need to consult with others while on the phone, the mute function lets you quickly pause the transmission of your voice.
Volume control	<p><b>Receive adjustment:</b> You're in full control of your caller's voice volume. Simply press the volume up/down buttons to adjust it.</p> <p><b>Transmit setting:</b> Naturally, you can even adjust the volume of your own transmitted voice to suit the person on the other end.</p>
PeakStop™ Protection	The GN9120 Duo guards against sudden loud noise spikes from the telephone network – max 118 dB SPL (RMS).
1.8 GHz DECT	With proven DECT technology, you always get distortion-free, fully secure calling.
<b>Warranty</b>	
2 year warranty	Rest assured 2 year warranty.

<sup>1</sup> Based on use in standard open office environments.
